CNC MACHINIST/PROGRAMMER/OPERATOR

Job Overview

We are an established manufacturing company seeking a full-time journeyman Machinist. This job opportunity is located in Yorkton, Saskatchewan.

Job Requirements

Education: Completion of a four-year apprenticeship program (Red Seal) is preferred; however, a combination of over four years of work experience in the trade and some college or industry courses in machining will be considered.

Experience: The successful candidate will have 3+ years' experience operating CNC machines such as lathes and milling machines in a busy manufacturing environment.

Duties:

- Set up and prove out CNC Programs on a variety of CNC Machines
- Carry out 100% inspection of completed components
- Deburr all completed components
- Detect and correct programs or machining malfunctions
- Read blueprints, drawings and engineering information
- Operate and perform to production standards
- Scanning in work stations to keep track of work orders
- Continual improvement of machining process
- Maintain a clean organized work space following lean methodology

Skills:

- Valid Saskatchewan or interprovincial journeyman machinist certificate (**Preferred**)
- Demonstrate knowledge of using instruments such as micrometers internal/external, thread micrometer, comparators, and calipers
- Excellent knowledge CNC machining and current tooling technologies
- Effective communication and strong problem-solving skills
- Flexible, energetic, and the ability to work in a fast-paced environment
- Must be able to work in Canada

What We Offer

- Dynamic, challenging work for talented individuals
- A competitive compensation
- Comprehensive benefits package including paid vacation leave, registered group pension plan and group benefits including vision and dental, long & short-term disability insurance
- Inclusive work environment
- Advancement opportunities

How to Apply
